# FAQ:

## *Frequently Asked Questions*

### FloraGLO® Lutein 20% Liquid in Corn Oil

1) **Q** What are the benefits of using 20% Liquid in Corn Oil?

**A** FloraGLO Lutein 20% Liquid in Corn Oil is preservative-free, kosher, halal, BSE-free and does not require manufacturers to put allergen labeling on their products.

2) **Q** Does FloraGLO Lutein 20% Liquid in Corn Oil command a premium price?

**A** No. The pricing for this product is identical to the current cost of FloraGLO Lutein 20% Liquid in Safflower Oil.

3) **Q** What is the physical profile of 20% Liquid in Corn Oil?

**A** FloraGLO Lutein 20% Liquid in Corn Oil is composed of corn oil and FloraGLO crystalline lutein, both of which are safe for human consumption. These ingredients have a suitable status for use in food and dietary supplement products in accordance with the laws and regulations of the U.S. Food and Drug Administration and governments throughout the world. FloraGLO Lutein 20% Liquid in Corn Oil is engineered as free-flowing, orange-red oil suspension that works great for soft gel production or liquid dietary supplements.

4) **Q** What about ease of use? What are the handling conditions for 20% Liquid in Corn Oil?

**A** FloraGLO Lutein 20% Liquid in Corn Oil should be stored at room temperature (16°C – 27°C) in a dry and odor free environment. It must be vigorously shaken prior to sampling, analysis and use.

5) **Q** What packaging sizes are available for 20% Liquid in Corn Oil?

**A** The product is commercially available in 1 kg and 25 kg packaging. A 25 g sample size is also available upon request.
